

Week 11 - HMI Research Group

16 Aug 2017 - 18 Aug 2017

Long Phi Nguyen (넌피롱), 한국전자통신연구원

August 18, 2017

Summary

Prepared the presentation and looked over all the work done throughout the internship this summer.

Points

- Verified old data and old modules for any integrity problems.
- Looked again at the papers that propose new methods of analyzing the problem.
- Formalized the project problem in “mathematical” terms.

Plans

- Get ready to give the presentation.

Addendum

The repository can be found [here](#).
